## TKD – a strong team

*"Efficiency, cost consciousness, adherence to delivery dates and responsible handling are our top priorities."*

*Jürgen Neumann, Managing Director, TKD Kabel Wächter*

The TKD Group combines the expertise of the three renowned cable specialists HPM Kabel, Kabel Wächter and Witt+Arnold. Their combined strengths work together and because of this, our customers profit from the various synergy effects. The TKD Group's competency centres in Mönchengladbach, Pliezhausen and Iserlohn trade independently. In addition they can offer their customers access to the entire TKD product range. The joint central logistics centre in Nettetal ensures high levels of availability.

The commitment and flexibility shown by our members of staff is important to the TKD Group. The company's values are being practiced at all management levels and reflect positively on the actions of our staff. We have been able to quickly establish ourselves on the international market and are today one of the most important industry groups in the area of cable, systems, devices and accessories.

*A cooperative leadership style distinguishes the management of TKD: Sven Seibert, Ralf-Erik Domek and Jürgen Neumann in conversation (from left).*

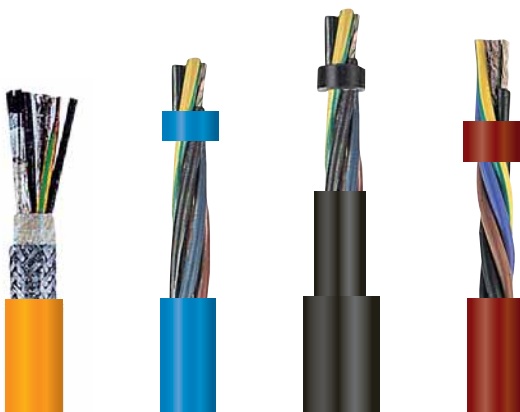

Behind this achievement stands the strong community of TKD staff. This team is the foundation and guarantee for our success. We work in highly competitive markets, that demand market-driven products, efficient solutions and flexible service at all times. The Corporate success is ensured by our staff, through their qualifications, high level of commitment and determination to go that extra mile.

*"Behind TKD are people with commitment and ideas, high-quality products and fair conditions."*

*Ralf-Erik Domek, Managing Director TKD Witt+Arnold*

Within TKD, management structure is kept simple and allows decisions to be made quickly. Individual responsible action of staff is welcomed. The result is a team in which everyone trusts one another. This sense of partnership is what we project to our customers. TKD is a reliable business partner and enjoys the confidence of its customers and suppliers.

With an international presence in all important markets and access to the expertise of more than 1500 members of staff at the manufacturing facilities of our parent company, the Dutch TKH Group, highest motivation and availability is guaranteed to our customers. Solution-driven, customer-orientated performance and good sense for market trends, is what makes us stand out. With these values, we are organisationally, technologically and economically prepared for the demands of the future.

TKD – your direct connection  
to superior cable solutions, worldwide...

The achievements of TKD can be found worldwide: at Eurogate in Hamburg, tunnel drills in Switzerland, the Duma in Moscow, the production of crank and drive shafts at Ford in Detroit or at Volkswagen in Shanghai. Many well-known customers put their trust in TKD's quality products.

Apart from our own constantly growing export sales, our products are also installed into machines and equipment, which will then be exported. In Europe as well as overseas, a multitude of TKD subsidiary companies and partners cover the local demand of our international customers. In addition six cable-manufacturing facilities of the TKH Group in Germany, the Netherlands and China are among the most efficient in the cable industry.

Thanks to the internationally concentrated expertise of a successful worldwide corporate group, TKD can offer its customers optimal solutions. Our key strengths in cable solutions are:

- Machine and equipment building
- Automobile industry
- Electrical and Electronic industry
- Port and Crane Installations
- Railway cables
- Conveyor Technology
- Elevator Construction
- Shaft Installations
- Fuel Installations
- Ship Building
- Petrol Industry

*"A very experienced team of competent and motivated staff will advise you on your specific needs and searches with you for optimal solutions. No matter how difficult the cable problems might be."*

*Sales Managers of TKD*

## Cables, systems and more...

The TKD Group's comprehensive product line covers all typical application areas for wire and cable in the industry. Our catalogue has become a standard reference for the cable industry. TKD's service reaches far beyond delivery of standard cables. Excellent customer service with competent consultation and high accessibility of our staff, as well as comprehensive after-sales service, is what sets TKD competency centres apart.

To secure our expertise early on in the process, more and more customers are making us part of their product development phase. Our specialists will develop, produce and assemble wires and cables for your individual needs. We optimize our products for their application in regards to outer diameters, bending radius, bending cycles, tensile and compression strength, optimal shielding technology and appropriate insulation materials.

TKD offers an all-around-carefree package for your cable needs. At your request, we can deliver the required cable to your construction or installation site as a consignment. With the increasing demand for system technology, we are offering individually designed complete systems and component sets, ready for connection. Take advantage of these services and make the job more efficient with the use of plug-in cable systems.

A well thought-out programme of accessories complements our wide product range.

The extensive range of products at TKD and our comprehensive service contributes considerably to decreased procurement costs for our customers just by simply reducing the number of suppliers.

**TKD – a strong team.**

*"Individual and demanding applications require, apart from custom-made solutions, experienced specialists for professional implementation."*

*Michael Andris, TKD Product Management*
